Mobility in Cere, Lavia

19.02-26.02.2013

On the 19.02.2013 we visited the Vocational Secondary School in the town of Kandava. There we could see the facilities of the school.

During the classes of electrical techniques.

ATTENTION !!!

Latvian children had made posters about the traditions and the customs of each of the partner- countries.

On the 21.02.2013 we were officially admitted in the partner-school of Cere.

On the same day the Headmistress of the school gave presents to all the participants in the project. Then there were more games and funny moments and some of them were the following:...

Mobility in Cere, Lavia

19.02-26.02.2013

We were invited to be part of the warm and creative atmosphere of the school by attending two lessons: in Arts and Maths. After that the leaders of the partner-groups gathered to discuss various questions and topics connected with the project.

Teachers and students could show their abilities in arts.

On the 22.02.2013 the mobile groups of the project "Komenski" were accepted by the Mayor of Kandava. Each group presented in short their own country and gave souvenirs to the Head of the town.

We visited the school museum. We could get into the traditions and the history of our Latvian partners.

During the day we had a visit to the Youth centre of Kandava. We saw a presentation about the history of this institution and its activity.

In the park of Kandava.

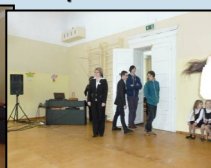

Secondary school of K. Milenbaha vidusskola.

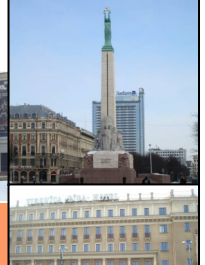

We learnt a lot about the traditions of the school, about its activities and projects and many other facts.

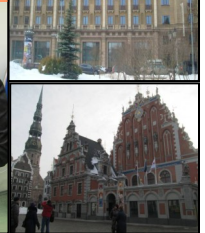

In the afternoon of the 22.02.2013 the participants in the project visited Zante. At school a special programme had been organized for accepting the mobile groups. Many initiatives were carried out but the most curious was the Military museum in the open.

On the 23.02.2013- an excursion to Venspils.

On the 24.02.2013 – excursion to Riga.

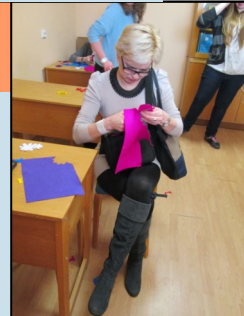

A walk along the seaside of the Baltic sea.

Even the teachers were enthusiastic and took part in the elaborating of flowers- jewellery that the children gave to their leaders later.

The participants in the project had the opportunity to show their talent not only as artists but as cooks. The students prepared delicious dishes that we tried with pleasure.

We took part in the concert "Popiela". The teachers presented themselves worthily and had the well-deserved applause of their students. There was a lot of lough and rewards.

Impressions from the meeting in Latvia

Friends from all project countries start up on a trip to Latvia. Despite the cold weather felt nice atmosphere and warmth. Relatively quiet place, really comfortable for living. Although small, this village was very picturesque.

Especially interesting for us was the visit to the Technical School where students are trained in similar of our subjects. We were impressed that the school was completely renovated by an Euro- pean project - clean and welcoming with well furnished laborato-

Kaloyan

Daniel

We had the opportunity to touch the culture and traditions, to see the sights of a wonderful country. We were able to meet with amazing people and create great friendships. During this one week we collected memories that we will never forget.

Anton

Priceless time spent in exploring new and valuable friendships have been started by a smile. With each passing conversation can be understood that, although from different parts of the world, we still have a lot of similarities. Because, among other things, the journey under the Project taught me that whatever language we speak and the country where we live, among the people there is a universal language and it is composed of human emotions and feelings.

Whether happy coincidence or gift of fate - Latvia with all her hospitality has become an experience that I will remember for a long time. Deep down I know that every smile, exchanged word or emotion, read in the eyes of the other children make me happy and at the same time helped me to grow!
