Bulgaria-Latvia-Poland-Romania-Sweden

October

In October Sweden and Latvia met over a Skype conference. Romania and Poland also talked over the internet using Skype. As always it was nice to meet and talk with friends and see their smiling faces!

On October 16th we met in Poland for our third meeting with students. It was a lovely meeting and we saw and experienced so many fun and interesting things! We saw many things connected to Polish history and culture, but also visited places of scientific interest such as the observatory and the university. One of the favorites was the park with all the old houses and buildings from the past. We also got to experience the great Polish hospitality and gained about 3 kilos each from all the tasty food!!

November

All the partner countries prepared informative and beautiful posters with activities from the first project year.

Bulgaria and Latvia met for a friendly talk over Skype.

December

December is the month of Christmas and New Year's Eve, the month of love and joy. We shared these wonderful feelings with our project partners by exchanging handmade greeting cards and good wishes via e-mail.

Poland and Latvia took some extra care and exchanged good wishes for the holiday season over Skype.

January

Each partner collected 5 top hits from his country and 5 international top hits. The Bulgarian partner then collected all the music on one CD. This way we now have a great European music collection to play at all our parties! Dance on United Europe friends!

This was a busy month for Bulgaria who also met both Sweden and Romania for friendly music talks over Skype.

February

We celebrated the month of LOVE by sending Valentine's cards to the partner countries. We had a lot of fun creating the cards and thinking of different designs.

Comenius galas were organized in the partner schools. They were popular events and helpful in disseminating the results of the project activities in the local community.

This month we also travelled to Bulgaria for a teachers' meeting. We got a lot of work done and also managed to see a lot of the beautiful and historical country. Unfortunately the fragrant Bulgarian roses were not in bloom but we watched the perfume being made. We were invited to Zarka's home and village and got to know the "real" Bulgaria. Thank you again Zarka!
